WORK EXPERIENCE

Electrical Engineer

Automac

📅 2017:2018 - 2021

- Partnered with 3 design team members to improve the operating efficiency of control systems for production lines by using OCR technique
- Designed drawings and specifications with CAD
- Working within a project Lockout& Tagout at the Novartis factory
- Create files of documentation, and qualifications for Novartis factory machines

Teaching assistant

HTI (Higher Technology institute)

📅 2013 - current

- Lecturer and researcher with 8+ years of experience teaching courses
- Member of the organization's main quality team for the last three years
- Helping students with graduation projects
- Work on the development of the institution and present the necessary recommendations to raise the efficiency of the institution
- Commitment to the work assigned to me and assisting the rest of the faculty members in completing the work
- A scientific paper has been published in a European scientific journal

Junior Electrical Engineer

DETAC Construction & Trading

📅 Aug-2013 - Sep-2013

- Implementation of the Administrative Prosecution Building Project in 6th of October City
- Drafted reports, presentations, manuals, and specification documents, and presented designs and design updates to supervisors and clients in review meetings
- Designed drawings and specifications with CAD and created shop drawings with detailed notes of variances and/or changes from original plans based on supervisor feedback
