

Cindrella Hassan

Business Owner

Soft Skills And Leadership Expert

25 years experience in training industry in various fields, with and excellent ability of delivery to different age groups with multiple cultural backgrounds. My believes in training that it's a mutual industry where the trainer always learns from their student as much as they teach them, and sometimes even more.

My method in dealing with students and trainees is, everyone is unique with their own way, so should be their content and its delivery method.
